H1 b 1: 13-14: the original has *e d*, giving the cycle one time unit too many. It seems, however, that the *e* may originally have had duration 2 rather than 4, in other words that the cycle was previously notated with one time unit too few, and that the correction made was overgenerous.

H3 a

(c)

H3 c: this and the previous section are separated not by the normal *ve leh* but, erroneously, by *tamm* (which appears again in its proper position at the end of the piece).
